

Project Development

Identifying a Path Through Obstacles and Risks

Biochar 2016– Corvallis, OR
August 23rd 2016

Introduction

- Who is Brad Thompson Co.?
- Equipment Sales/Representative
- Project Development Consultation
- Small Power Integration
- History

Concept Development

- Reasonable Boundaries
- Project Focus
- Project Execution Options
- Face Risks

Technical Definition

- Informs Project Development Tasks
- Effort vs. Knowledge Curve
- Identify Early Risk Points

Preliminary Engineering

- Necessary for Permitting and Financial Closure
- Level of Effort
- Vendor Support
- Process Data Needs
- Engineering Options

Project Management

- Project Plan
 - Key Milestones
 - Short and Long Term Cash Flow
- Division of Responsibility

Detailed Execution

- Comprehensive Engineering Specification
- Total Plant Integration
- Set Guarantee Points
 - Key Milestones
 - Short and Long Term Cash Flow
- Division of Responsibility
- Balance of Plant Integration
- Construction Scope

Thank you
